## The Rules

- **Variety:** You must choose a **different Pisciner buddy** for every session.
- **Earnings:** Regular hourly rates are suspended during the challenge.
- **Consecutive Play:** The student multiplier increases with each consecutive day of participation.
- **Authority:** Kars has the final say in all disputes.

Here is how the multiplier works:

START	0,20x	0,40x	0,80x	1,0x
1,2x	1,4x	1,6x	1,8x	2,0
2,6x	2,8x	3,0x	3,2x	3,4x
3,6x	3,8x	4,2x		

To illustrate, let's consider an example starting from **0 points**.

By volunteering once, you will earn 40 points, placing you at the START position. As you continue to volunteer each consecutive day, your multiplier will increase, unlocking bonus points along the way.

For instance:

- After 2 consecutive days, you will receive 8 **bonus** points ( $40 \times 0.20 = 8$ ).

- 3 consecutive days, you will earn 16 bonus points ( $40 \times 0.40 = 16$ ).
- 5 consecutive days, you will gain 40 bonus points ( $40 \times 1.0 = 40$ ).
- 16 consecutive days, you will earn 144 bonus points ( $40 \times 3.6 = 144$ ).
- Finally, at 18 consecutive days, the maximum multiplier, you will receive 168 bonus points ( $40 \times 4.2 = 168$ ).

Imagine this. If you started with 0 points and participated every single day, you can earn up to **1440 bonus points**. That is **double** the usual earning rate of 720 points for 18 hours! Isn't that ridiculous? Be careful though. If you skip a day, your multiplier will reset, and you will go back to START!
